ELEPHANTS FOOT GROUP

Drum Crusher

Save space and boost recycling efficiency with our powerful Drum Crusher. Designed to crush steel and metal drums with ease, it offers fully automatic, plug-and-play operation for safe and effective waste handling with no installation required.

Engineered for durability and performance, the EF Drum Crusher simplifies your waste management process while significantly reducing storage space.

FEATURES

- Fully automatic operation for user-friendly experience.
- Versatile Performance handles up to 205L drums.
- High-Capacity performance crushes up to 50 (20L) drums per hour.
- Built in safety & containment includes liquid drain base and optional weather covers.

Powerful hydraulic system flattens steel with ease.

Integrated liquid containment for clean operation.

Plug in and start crushing immediately.

Fast throughput with 30-second cycles.

SPECIFICATIONS

Dimensions HxDxW	2800x1000x1050
Pressure	20 Tonnes
Cycle Time	30 sec
Power	415V, 32A 3-phase D curve breaker
Machine Weight	1 Tonne
Capacity	20—205 L
