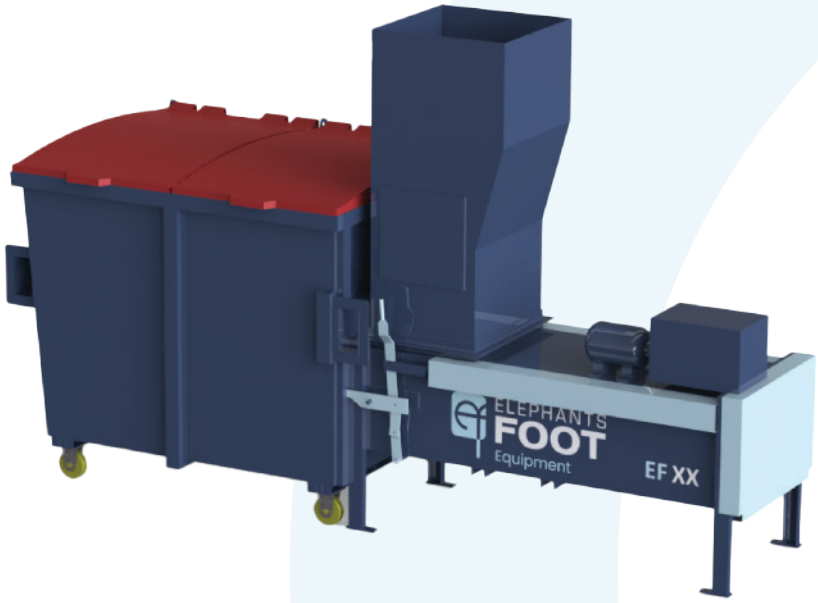
ELEPHANTS FOOT GROUP

Small Container Packer

A compact, high-speed compactor designed for tight spaces and high-volume waste.

Ideal for high-rise apartments, shopping centres, and warehouse docks, it fits under garbage chutes or integrates with bin lifters for seamless operation.



FEATURES

- 20-second cycle time for fast processing.
- 1.5–5m³ bin capacity with compact footprint.
- 700 × 500 mm loading door for easy access.
- Fully automatic operation with light indicators.
- 415V plug-and-play setup, no installation required.

Space-efficient for indoor or outdoor use.

Fast throughput with 20-second cycles.

Flexible integration with chutes, lifters, or manual loading.
