## TYRE BALER

# EF 1200

Designed for durability and efficiency, this baler compresses bulky car, truck, and bus tyres into compact, stackable bales.

It reduces storage and transport costs while streamlining operations.

With advanced hydraulics and built-in safety features, it's the ideal solution for high-volume tyre recycling facilities.

## FEATURES

- Hydraulic-driven door for safe, controlled access.
- Dual platens with flexible links to prevent distortion.
- Retractable claws to prevent bale rebound.
- Auto chain ejector for fast bale removal.
- Front and rear doors for easy strapping and unloading.

Effortless operation with hydraulic compression.

Perfect bales from anti-slide chamber design.

Stackable output for 5x transport efficiency.

Safety-first automated controls.

Repurposing-ready bale consistency.

## SPECIFICATIONS

| | |
|---|---|
| Baler Dimensions (HxDxW) | 3700x1090x3734 mm |
| Chamber Size (HxDxW) | 1800×790×1530 mm |
| Bale Size (HxDxW) | (500-1200)x790x1530 mm |
| Bale Weight | 1 Tonne |
| Power Supply | 415V, 3-phase with D curve breaker |
| Motor | 15 kW |
| Hydraulic Pressure | 120 Tonnes |
| Machine Weight | 7 tonnes |
