ELEPHANTS FOOT GROUP

Wool Press

A high-performance baler engineered for wool producers and recycling operations.

With a compact footprint and advanced safety features, it delivers dense, transport-ready bales up to 250 kg.

Ideal for streamlining wool packaging with minimal manual handling and maximum reliability.

FEATURES

- Fully automatic T-tying system for fast bale securing.
- Anti-rebound gate enhances operator safety.
- Front and rear doors for convenient access.
- Japanese NOK seals and AMC joints for leak-free operation.
- Compact, transportable design with multiple chamber options.

Safety
Auto-stop when gate opens.

Efficiency
Direct-cross piston pump.

Durability
Japanese NOK seals.

Customisation
Multiple chamber sizes.

SPECIFICATIONS

Dimensions HxDxW	3700x950x2050
Compaction Force (T)	30
Bale Size	1000x750x750
Bale Weight	Up to 250 KG
Capacity of Wool	200 KG per bag
Safety	Auto-stop when gate opens
Efficiency	Direct-cross piston pump
Durability	Japanese NOK seals
